Sales & Marketing
Leader

Lead Generation Guru

SmartHealth AI revolutionizes patient care by creating better patient experienced with AI.

Automate documentation and admin tasks to improve care quality

Enhance patient and clinician experiences through AI-assisted tools

THE VISION

“Our vision is to be a leader and in enhancing patient experiences irrespective of the systems being used by the hospitals”

SWOT

Strengths

- Over 200 hospitals onboarded
- Robust feature capabilities driving 10X efficiencies

Weaknesses

- Resourcing constraints
- Need to ensure more compliance with HIPAA and other standards

Opportunities

- Funding to support the robust AI models that are patented
- Funding to ensure full compliance with health care standards

Threats

- New niche players are entering this space
